

Mission Statement

The CPAC Center for Defeating Communism exists to educate Americans about this ideological and cultural subversion, to expose the disinformation and lies that seek to normalize tyranny, and to rally a new generation of patriots to reject communism in all its forms. We will fight tirelessly to stop the spread of this poisonous ideology, to restore faith in the founding principles of freedom, and to protect America from those who would see her destroyed. In doing so, we are committed to making meaningful change at every level of American life. Communism is not just a foreign menace, it is here. We will call it by its name, we will root it out, and we will ensure that the flame of liberty burns bright for everyone.
